2U Shelves: Fixed & Sliding - 2U S-LIU/F-LIU

Efficient Connection Management that Helps You Save on Maintenance and Replacement Costs

2U Shelf Unit Stacked Drum Arrangement

Features

- Available in both a fixed and sliding configuration
- Preassembled shelves in multiple configurations
- Integrated Front Trough
- OFS Ganged Adapter Sets maximize footprint
- Includes adapter panels for 96 LC, 48 SC or 48 ST terminations
- 19-inch frame mounting
- Fits 2U rack space (3.5" h x 17" w x 8" d)
- Clear plastic shelf cover protects fibers
- Four 3" Fiber Spools
- One Compression Grommet
- Labels
- Optional extender brackets for 23" frame

Benefits

- Slim 2 Unit Mounting Height (1U rack space)
- Front-mounted jumper management
- Fits 19", 23", or ETSI frames
- Can manage both splices and terminations

Product Description

The 2U Shelf Unit is an efficient connection management solution to terminate and splice fibers, that enables quicker network rearrangements and easier fiber resources tracking. Its innovative design and configuration also help save on maintenance and replacement costs.

The 2U Shelf Unit houses up to 48 ST, 48 SC or 96 LC terminations, and features a versatile design that can accommodate 48 mechanical splices, 96 single fusion splices, or 36 ribbon (mass fusion) splices using optional splice organizers. Its functional dimensions make the shelf unit ideal for 19-inch frame mounting, and optional extender brackets can be added to fit into 23-inch frames.

Other features of the 2U Shelf Unit such as a clear plastic shelf cover for protection of the fibers, labels, straightforward front-mounted jumper management, and multiple preassembled configurations, allow users to manage cable resources efficiently.

Mounting the Splice Tray Bracket

To correctly mount the splice tray bracket, simply place the bracket in between the bracket retainers and turn clock-wise until locked into position as shown (short splice bracket depicted (300522042)).
