

FITEL EZ-Terminator™

Superior Handheld Termination Tool for All of Your FTTH Connector Installations

Features and Benefits

- **User Friendly:** The EZ-Terminator comes with a Field Technician friendly designed wide operation chamber for easy fiber loading and connector assembly.
- **Simple Operation:** The EZ-Terminator is designed with One Touch operation and pre-installed programs for error-free SOC fiber termination work.
- Excellent Visibility: Three LED lights illuminate the entire operation chamber with more than 300 Lux. The intense bright light is critical aid for performing connector terminations in low-light environments which are commonly encountered during MDU/ SFU installations.
- Industry-First Patented Removeable V-Groove: The EZ-Terminator features a
 detachable V-groove for the field easy cleaning and optimal maintenance, which
 reduces downtime and achieve optimal performance with the industry's only
 removeable v-groove! Clean in just minutes with no tools required.

Overview

The FITEL EZ-Terminator™ is a handheld connector termination tool that delivers fast and reliable terminations even under the toughest of situations. Combining portability in a ruggedized body, the EZ-Terminator offers powerful performance and accessibility needed in any MDU (Multi Dwelling Unit) and SFU (Single Family Unit) installation.

This industry-first tool is dedicated for SOC solutions and is a must have for any termination project. FITEL EZ-Terminator's powerful motors and simple operation can guarantee high quality, repeatable results. The EZ-Terminator and SOC's combine to provide optical loss performance and yield superior to mechanical connectors. It's easy to see how this saves both time and money. With its large battery capacity, it can achieve 100 termination/heating cycles on a single charge giving you portability without sacrificing performance.
