SlimBox® 12-Fiber Wall Mount Module with External Adapters

Features and Benefits

- Splice tray holds either 40 mm single fusion splice sleeves or bare planar splitters
- Cable entries at the bottom of the enclosure
- Multiple panels for housing adapters
- Small size taking up minimal wall space
- Formed in plastic with high mechanical resistance providing protection for splices and terminations
- Can be installed in any vertical plan surface easily reducing installation time

Product Description

The SlimBox 12-Fiber Wall Mount Module is both a termination and splice point for optical fiber in an indoor wall mounted environment. Cable enters from the bottom and the grommets allow for pass through of the fiber without splicing. The additional splice tray provides pigtail and fanout splicing (single fusion splicing). Various Panels come with the module for termination of SC, FC, ST and LC (duplex) connectors.

*Wall Mount Enclosure
with 12 SCA adapters*

Performance Specifications	
Capacity	12 splices by fusion or mechanical 12 optical cords
Included	Screw for the front cover
Accessories	<ul style="list-style-type: none"> • Screws and anchors to fix in the wall • Splice identification sheet • Cable entries • Cable ties • Instruction sheet
Security	Hidden screw to close the front panels
Protection Level	IEC 60529 IP20
Warranty	12 months
Physical Characteristics	
Dimensions	5.88" H x 4.85" W x 1.79" D
Material	ABS Plastic, UL 94V-0
Color	Gray (RAL 7035)
Standards	

- EIA/TIA-568.B
- ITU-T L.51 "Passive node elements for fiber optic networks
General principles and definitions for the characterization and performance evaluation"
- ISO 11469
- RoHS
- UL 94 V0
