Internal View

Features and Benefits

- High reliability
- Formed in plastic with high mechanical resistance providing protection for splices and terminations
- Color-coded adapters provide easy fiber identification
 - SCA is simplex SC APC (green)
 - SCU is simplex SC UPC (blue)
- Compact package
- RoHS compliant
- Small size taking up minimal wall space
- Dedicated tray for pre-connectorized splitter
- Ideal product for pre terminated FTTx network as floor distribution box or main distribution box for small MDU application

Product Description

The SlimBox 12-Fiber Wall Mount Module provides both termination, splice and splitter capacity for an indoor optical fiber network. The Building Cable and patch cords enter from the bottom. The splice tray covers the patch area and holds 12 single fusion splices. The grommets allow for pass trough of the fiber without splicing. The module termination allows SC or LC adapter type.
