SlimBox[®] 4-Fiber Rosette Module

Internal Use

SlimBox 4-Fiber Rosette Module Open

Features

- Allows termination of an optical cable using direct connectorization or splice (fusion or mechanical) to optical extensions (pig tails) of 2 optical fibers (without the tray)
- Optional splice tray with reduced dimensions design to accommodate up to four G.657A (Bend-Insensitive) fibers or optical splitters
- Up to 02 optical adapters (SC type) can be placed in the module
- Four cable access: 02 in the bottom/ 01 superior/ 01 at the right side and 01 in the back (from the wall)

Benefits

- Compatible to 4x2" boxes
- Reduced dimensions
- Discrete
- Easy to handle – articulated parts; removable piece to fix the cable; internal fiber guides
- Can be installed in any vertical plane surface
- Formed in plastic with high mechanical resistance and efficient design
- Large space for fiber slack inside the product
- Allows to accommodate splice protectors (40 mm), or mechanical splices
- Identification label in the front cover
